TARIFF FORMAT SHEET

- A. Page Numbering - Page numbers appear in the upper-right corner of the sheet. Pages are numbered sequentially. However, new pages are occasionally added to the Tariff. When a new page is added, the page appears as a decimal. For example, a new sheet added between Sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper-right corner of the page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Sheet 14 cancels the third revised Sheet 14. Because of deferrals, notice periods, etc., the most current page number on file with the Commission is not always the Tariff page in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level of coding.
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).I
 - 2.1.1.A.1.(a).I.(i)
 - 2.1.1.A.1.(a).I.(i)(1)
- D. Check Sheet - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet list the pages contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remained the same, just revised revision levels on the same sheets). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current page on file with the Commission.

2.2 Wireless Service

2.2.1 Scope of Service

- A. Services are limited to the operating range and capacity of the Company's wireless system in the Designated Service Area, as approved by the Commission, and may be changed from time to time.
- B. Service depends on over-the-air radio transmissions and therefore is affected by certain limitations. Coverage may not be available everywhere and at all times. Many factors beyond the Company's control may affect the ability to make and receive calls on the Company wireless Handset. Quality of service may be affected by conditions beyond the Company's control including, but not limited to, atmospheric, geographic or topographic conditions, location, nearby buildings and other structures, network capacity issues, system outages or failures of equipment to operate as expected, Subscriber damage to a mobile Handset, a problem that occurs with service the Company purchases from a third party, system upgrades, performance of maintenance work, accidents or other events outside of the Company's control. As a result, Services, including calls or attempted calls to emergency services, may be interrupted, may fail, or may be below normal quality levels. The Company takes no responsibility for Service interruptions or problems caused by factors beyond the Company's control.
- C. The Company does not warrant or guarantee that service will be available at any specific time or in specific geographic locations, or that service will be provided without interruption.
- D. Statements or maps provided by the Company, its employees, representatives, or agents regarding system coverage, are intended to describe approximate coverage areas only and are intended to provide only high-level estimates of the Company's system coverage within the Service Area when using the Service outdoors under optimal conditions and does not mean that Service will be available under all circumstances, at all times and should not be interpreted to mean that Service will available without interruption.
- E. Estimating wireless coverage and signal strength is not an exact science. There are gaps within the Company's estimated system coverage areas. This, along with other factors, both within and beyond our control, may result in Service interruptions, slower data speeds, or lower quality of service.
- F. Subscribers agree to hold the Company harmless against any and all claims, demands, actions, or other causes of action (including actions by third parties) arising out of the use or attempted use of the Service.
